

Medtronic Highlights Growth Opportunities at J.P. Morgan Healthcare Conference

January 12, 2015 12:00 PM CT

SAN FRANCISCO -- Jan. 12, 2015 -- Chairman and CEO Omar Ishrak discussed the future of Medtronic, Inc. (NYSE: MDT) during a presentation to investors at the 33rd Annual J.P. Morgan Healthcare Conference in San Francisco today. The presentation outlined the company's continued focus on creating long-term value in healthcare through its three key strategies of therapy innovation, globalization and economic value. The pending acquisition of Covidien was also highlighted, which is expected to close in the last week of January or early February and is expected to meaningfully accelerate Medtronic's three strategies and increase the company's financial strength and flexibility. The company remains focused on combining reliable performance with disciplined capital allocation to create long-term shareholder value.

"We are steadfast in our focus on delivering long-term value in healthcare and believe there is significant growth opportunity for us as our strategies address the three universal healthcare needs - improving clinical outcomes, expanding access, and optimizing cost and efficiency," said Ishrak. "Aligned with these universal healthcare needs, our three key strategies will deliver new therapies, unlock opportunities in emerging markets and develop new solutions for hospital efficiency and disease management."

Progress against the company's three key strategies was highlighted during the presentation:

- **Therapy Innovation:** strong execution of recent product launches, including the Reveal® LINQ® implantable cardiac monitor, CoreValve®, Nuvent(TM) Sinus Dilation System and MiniMed® 530G with Enlite. The company also outlined a cadence of future therapy innovations over the next four years.
- **Globalization:** focus on addressing the inequity in healthcare access globally by creating diverse sources of revenue in emerging markets through private and public partnerships, as well as channel optimization, which is a shift to direct distribution to get closer to the customer.
- **Economic Value:** focus on becoming a leader in the transforming value-based healthcare landscape where the delivery of care and the related costs are directly associated with patient outcomes. In the Integrated Health Solutions business that is focused on delivering economic value for hospitals and health systems, both Cath Lab Managed Services and Cardiocom® have contributed to growth that is expected to accelerate over the next few years.

The presentation also referenced Medtronic's continued ability to generate significant free cash flow, of which it is committed to returning 50 percent to shareholders through dividends and share repurchases.

"Medtronic is uniquely positioned to be the leading medical technology solutions partner with market-leading products, breadth and scale and financial strength," said Ishrak. "With the addition of Covidien, our combined portfolio and global representation will enhance our ability to deliver economic value to more patients and physicians, in more places around the world."

An archived webcast of Medtronic's 2015 J.P. Morgan Healthcare Conference presentation will be available via the company's website at www.medtronic.com/investors later today.

Cautionary Statement Regarding Forward-Looking Statements

Statements contained in this communication that refer to New Medtronic's, Medtronic's and/or Covidien's estimated or anticipated future results, including estimated synergies, or other non-historical facts are forward-looking statements that reflect Medtronic's and/or Covidien's current perspective of existing trends and information as of the date of this communication. Forward-looking statements generally will be accompanied by words such as "anticipate," "believe," "plan," "could," "should," "estimate," "expect," "forecast," "outlook," "guidance," "intend," "may," "might," "will," "possible," "potential," "predict," "project," or other similar words, phrases or expressions. It is important to note that these goals and expectations are not predictions of actual performance. Actual results may differ materially from current expectations depending upon a number of factors affecting New Medtronic's business, Medtronic's business, Covidien's business and risks associated with the proposed transactions. These factors include, among others, the inherent uncertainty associated with financial projections; restructuring in connection with, and successful close of, the Covidien acquisition; subsequent integration of the Covidien acquisition and the ability to recognize the anticipated synergies and benefits of the Covidien acquisition; the risk that the required regulatory approvals for the proposed transactions are not obtained, are delayed or are subject to conditions that are not anticipated; the anticipated size of the markets and continued demand for Medtronic's and Covidien's products; the impact of competitive products and pricing; access to available financing (including financing for the acquisition or refinancing of Medtronic or Covidien debt) on a timely basis and on reasonable terms; the risks of fluctuations in foreign currency exchange rates; the risks and uncertainties normally incident to the medical device industry, including competition in the medical device industry; product liability claims; the difficulty of predicting the timing or outcome of pending or future litigation or government investigations; variability of trade buying patterns; the timing and success of product launches; the difficulty of predicting the timing or outcome of product development efforts and regulatory agency approvals or actions, if any; potential for adverse pricing movement; costs and efforts to defend or enforce intellectual property rights; difficulties or delays in manufacturing; reduction or interruption in supply; product quality problems; the availability and pricing of third-party sourced products and materials; risks associated with self-insurance and commercial insurance; successful compliance with governmental regulations applicable to New Medtronic's, Medtronic's and Covidien's facilities, products and/or businesses; changes in the laws and regulations, affecting among other things, pricing and reimbursement of pharmaceutical products; health care policy changes; risks associated with international operations; changes in tax laws or interpretations that could increase New Medtronic's, Medtronic's and/or Covidien's consolidated tax liabilities, including, if the transaction is consummated, changes in tax laws that would result in New Medtronic being treated as a domestic corporation for United States federal tax purposes; the loss of key senior management or scientific staff; and such other risks and uncertainties detailed in Medtronic's periodic public filings with the SEC, including but not limited to Medtronic's Annual Report on Form 10-K for the fiscal year ended April 25, 2014, in Covidien's periodic public filings with the SEC, including but not limited to Covidien's Annual Report on Form 10-K for the fiscal year ended September 26, 2014, and from time to time in Medtronic's and Covidien's other investor communications. Except as expressly required by law, each of New Medtronic and Medtronic disclaims any intent or obligation to update or revise these forward-looking statements.
